Maybe you can settle this problem. We don't seem to be able to settle it at home I say that it's possible for me to do my homework while! In waterbing IV, and my patents say it's impossible. I get pretty good grades, and I almost always wateh IV while I'm deing my homework. My parents say I'd do even better if I just shut the IV of II.

Aggressiveness is key as Demons whip Proviso

The Demons of Maine East High School finally decided today to play the basketball they are capable of playing, and in their finest perform-ance of the season least Friday night in Park Ridge, simply overwhelmed usisting Proviso West 73-52. The game was a fine display of mental and physical aggressiveness.

Reimann led the team in scoring with 22 points. Crosin was the spart, which ignited the tough Demon plays as the set the pace for the victorius Park. Ridge quintet. THE FRONT LINE was also putting on a fine show as Jay Bondeson secred 10 points while leading both teams in re-bounding. Deschamps hit 11 points and took six rebounds and young Mark Bondeson scored 16 points with five captures.

This is a nut.

It's exactly what we're not, We're also not a kook. Or a wayout. Or anything remotely resembling any of those things. And you know what, neither is fastion. All of a sudden, the nessage is alrease. Gritness. Body. It's haits that move. Satins that elling it's panta as soft as skirts. And casts that float. And lovely long dreves that are as young in their own way as minis. Oh, it's exciting. And groovy. But growiness and nutriess are two different things. As we will be happy to demonstrate. Any day. At our place. Just fit you.

The first step is to make the hanger as round as possible. To do this, pull the center of the cross-wire until the hanger is diamond-shaped. Then, using a large, round jar or similar object as a mold, press the wire with your hands until is has become a circle.

naing the viction to cover the wire to the window. The work of the window with ordination instead of ever-green, cut some sheets of green cellophane and red cellophane into air-inch squares. Roll each square into a cone. The these cones to the circle of wire, fil-ting the pointed ends close to-gether to make a thick weath. Alternate the red and green cones. Attach the red bow and the wreath is ready to hung.

This is a nut.

It's exactly what we're not. We're also not a kook. Or a way-out. Or anything remotely resembling any of those things. And you know what, neither is fashion. All of a sudden, the message is softeness. Gerlness. Body. It's knits that move. Satine that ring, It's pants as soft as skirts. And coas that float. And lovely long dresses that are as young in their own way as minis. Oh, it's exciting. And groovs, But grooviness and nutriness are two different things. As we will be happy to demonstrate. Any day. At our place. Just for you.

With Every Good Wish for a Wonderful

As shepherds watched in wonder and awe ... while Wise Men

followed a sacred Star ... there in a Manger

an Infant lay, born to bring messages of comfort and

joy, of "Peace on Earth, Good Will toward Men." In this gladsome season, when we celebrate anew

the marvels of the first Christmas, we reflect reverently

upon the meaning and Miracle of Bethlehem. With our friends and neighbors, we share the quiet contentment

and high happiness of this holy Day, and we

gratefully take the opportunity to put aside the routine of everyday business and to send, to one and

all, our warmest holiday wishes. Merry Christmas!
